

St Joseph By Aiden

St Joseph's feast day is 19th of March. Joseph is the patron saint of many things. He is the patron saint of families, fathers, expectant mothers, travelers, immigrants, house sellers and buyers, craftsmen, engineers and working people.

He is known for being the father of Jesus and he helped Mary through having Jesus. His job was a carpenter and he also taught Jesus how to do a little things about carpentry.

Joseph died at the age of 111 which is pretty old if you think about it. He is really protective of Jesus and he supported Jesus a lot.

Some people don't recognize what Joseph did. As you might know, Mary said yes to having Jesus but what about Joseph. Joseph said yes too and no one really appreciates that. If he said no Jesus would have grown up without a father and it would have also been hard for Mary to give birth to Jesus without someone supporting her.

This Saint inspires me because of his Bravery and his support towards others. He had to flee Bethlehem to keep Jesus safe. His qualities are bravery, strength, obedience and patience. He helps everyone God asks him to do.

I chose him because at the time we were picking, we just finished celebrating his feast day and I wanted to learn more about him. It is also his year and his qualities are amazing
