

St Rose-Research

St Rose Of Lima, Peru. St Rose was an amazing woman who would put others before herself. I choose St Rose because she is an amazing person and I also loved her name.

St Rose grew flowers in her backyard to raise funds for the poor people in her community. She would provide food and supplies for the elderly and the poor in her community. These people couldn't physically get the items themselves. Some qualities for St Rose were that she helped people no matter what, respecting everyone, was kind and to pray to continue her faith.

One thing that I found inspiring about St Rose is that she grew flowers in her family's garden and worked together with her family to raise funds for the poor. St Rose would always pray and keep connected with God and Jesus. She would pray by keeping her faith to God and never turning away from him. When things went the way Rose planned them she would be happy and always knew anything was possible with God on her side. When things went wrong she would never get upset and kept believing. St Rose wouldn't let one small thing get to her. St Rose's feast day is on August 23rd and it's formally on August 30th. St Rose was born on the 20th April, 1586. She died on 24th of August 1617.
